COMM-TEC

WEBCASTER X2
The most reliable encoder for
social media streaming

+ more

Stream live to **Facebook**, **YouTube**, and more

Live streaming shouldn't be complicated! Epiphan Webcaster X2™ is a dedicated encoder designed from the ground-up for live streaming to your favorite social media platform, making streaming a breeze. Pair your device once with your accounts and it remembers your settings for all future streams.

Control how you stream

Stream to your Facebook Timeline or any Group, Event, or Page you administer. On YouTube, choose to stream live now, or publish to a scheduled event. Connect a mouse and monitor to Webcaster X2 for additional configuration options.

Pro audio and video support

Stream your HD camera, mixer or display by connecting it to the Webcaster X2's HDMI IN port. Connect any wired or wireless mic to your camera and get professional HDMI audio quality.

Live monitoring and interactivity

Monitor your Facebook and YouTube live videos and see viewer comments and reactions in real time. Simply connect a display to the Webcaster X2's HDMI OUT port.

Multi-streaming with Switchboard Cloud

Manage multiple simultaneous streams with the powerful Switchboard Cloud.

Create **higher quality** live video for social media

Ethernet or Wi-Fi
Stream using
Ethernet or Wi-Fi
